Kris,

We've received 23 companies' census data, totaling close to 3K employees. Very good response rate! Here is the list by state, company count, and employees per state received. Based on the amount of employees, we believe we have enough critical mass to go to RFP for NAHMA's AHP. We will not know whether a carrier will be willing to write NAHMA's AHP without first submitting the RFP to the market. Please let us know the board's decision to move forward with RFP or not. Thanks!

Thanks,  
Tyler
