- I began my career, as most did, part time in college. I initially focused on high-end, luxury communities but was hired to do a complete relocation project with a full tear down and rebuild and that is where my passion and love for affordable housing emerged. The people that you are truly helping, and the feeling of accomplishment is like no other. This also started my love for volunteer work.
- Affordable senior housing is my absolute FAVORITE!
- My free time is spent cheering on LSU as my son attends the school as a freshman!

- Looking forward to returning to NAHMA after nine years.
- Biggest personal change—became a Mimi to a beautiful little girl who is now almost 3. Loving her and her two half-sisters as well!
- For those who are curious ... I am still running but not as far or as fast.

My journey into nonprofit affordable (senior) housing started by happenstance when I was looking for work soon after completing my undergrad. Little did I know, I went from looking for a job to finding my career. Fast forward two-plus decades and I'm still with CSI Support & Development, having worked in various capacities from administrative to development to operations. During that time, I also got married, started a family, obtained my master's in business administration, and even dealt with the loss of a parent. I have grown personally and professionally with CSI and, while it may seem cliché to say, it truly does feel like family. So, three things about me? I guess now you know what I do, how long I've been doing it, and how grateful I am to be part of it.
